AutoRobustXAI – Model Health Report

Generated: 2026-01-04 12:12:49

Summary Statistics

Metric	Value
Total Tests	7
Avg Confidence Drop	15.32%
Avg Robustness Score	65.83
Avg CAM Drift	0.0799

Failure Analysis

Failure Type	Count
Diffuse Attention	3
Patch Dominance	2

Retraining Recommendations

1. Apply CutMix or Random Erasing to reduce local shortcut learning

2. Increase training epochs or input resolution to improve feature learning
